

On behalf of our EGR Aquatics Team I would like to welcome you to East Grand Rapids High School Pool (Butch Briggs Natatorium). The HS Pool is a favorite for competitive swimming, diving and water polo. We host community lap swim times at the pool. The facility includes a 14 lane, 25-yard pool with steps and accessibility lift options for entry, women's locker room and men's locker room. You can purchase a pool membership online or at the EGR Parks and Recreation office.

Enjoy your time at the pool,
 Betsy Granstra, Aquatics Supervisor

Pool Policies and Procedures

Welcome to the EGR HS Pool.

- Swimmers will enter through exterior door #27 off of Wealthy St.
- Check in with staff in the pool lobby or on the pool deck.
- Staff will check in swimmers and verify pool membership, **no drop in swimming visits are permitted at this time.**
- 8 lanes will be available for swimming. Families will be encouraged to share a lane.
- It will be strongly encouraged that locker rooms are used for showering and changing only - extended time (drying hair, etc. is discouraged). All patrons will be out of the locker room no later than 15min following their swim.

As always, our goal is to offer our patrons a safe and enjoyable swimming experience. We continue to work with the Kent County Health Department and executive orders from our State and National leaders. This may require us to modify our Pool Policies and Procedures.

Closed - Monday, September 6, 2021 - Labor Day

***HS Athletic teams begin practice the week of August 9, 2021. Schedule changes may occur to changes in the practice times or competitions.**

***We are currently hiring for all lifeguard positions. If you have questions about employment opportunities contact Betsy at bgranstra@eastgr.org**

Inclement Weather Policy:

If the East Grand Rapids Public Schools are closed due to inclement weather, both pools will be closed. We will close in the event of a tornado watch or warning, or a power outage lasting longer than 30 minutes.

Pool Closures and Changes:

Unexpected pool closures may occur due to pool contamination and/or mechanical failure.
